

# INTOUCH TERMINAL

## A Time Clock Built for Today's Modern Workforce

Over the last 10 years the world of workforce management has fundamentally changed — from single-point solutions to workforce management suites that are deployed in the cloud. But time clocks, a fundamental tool used to track and manage the workforce, weren't keeping up with, well ... the times. **Until now.**

The InTouch® device provides an unrivaled user experience that reshapes the way employees interact with Mosaic's Workforce One. All through a simple touchscreen time clock designed to meet your needs of tomorrow, today.

### Designed with Users in Mind

#### Unrivaled user experience

With InTouch, even basic tasks such as punching have been simplified. Need to record your time? Simply present the badge technology of your choice and your punch is automatically accepted and confirmed with an audible tone and a bright-green indicator.

#### Seamlessly integrated

Given the increased focus by the Department of Labor on ensuring that hourly employees are properly paid, InTouch can become an important tool in helping defend against an employee or class-action lawsuit.

#### Built for the cloud

InTouch was designed for environments that demand secure devices that can be accessed anytime and from anywhere. Device-initiated communications allow the clock to work over the open internet and through firewalls while protecting the data using SSL encryption. DNS, DHCP, and IPv6 support provide plug-and-play capabilities. The cloud also means InTouch can incorporate enhancements on the fly, addressing the ever-changing needs of a modern workforce.

#### Rock-solid

Mosaic recognizes that InTouch will be installed in some very harsh environments. That's why we have gone to great lengths to use only the most proven and durable technology.

### Pricing Information

InTouch Model	Rental Price (Month)	Purchase Price	Maint. per clock/year
Bar Code or Mag Stripe	\$110.00	\$2,575.00	\$200.00
HID Proximity	\$125.00	\$2,955.00	\$200.00
Biometric Upgrade	\$31.25	\$1,000.00	\$125.00

Additional Items	
One-time Setup per Clock	\$250.00
On-Site Setup	Per Quote
Bar Code Cards (Each)	\$1.75
Mag Stripe Cards (Each)	\$2.05
Proximity Cards (Each)	\$3.95
Door Relay	\$245.00
Wi-Fi Option	\$225.00

Door Relay and Wi-Fi Option pricing applies to rental and purchased clocks

### Key Features

- Large 7" **touchscreen** with wide screen, full-color LCD: A simple, intuitive, and unrivaled user experience that delivers an unprecedented level of functionality for faster adoption and improved productivity. The screen is designed so dust, dirt and grime should not affect the functionality, as interaction with UI performed through applying pressure to the resistive touch screen and can be used with gloves.
- Optional **biometric** verification or identification for increased payroll accuracy: **Prevents employees from buddy punching**, or allows a leap forward in security — InTouch incorporates biometric technology to validate an employee's identity
- Supports all major badge formats: Allows employees to punch in based on the system that works best for them and your organization
- Easy-to-understand LED indicator: Using the badge technology of your choice, each punch is instantly processed and accompanied by an audible tone and a bright-green indicator for quick interpretation
- Internal battery backup included

## InTouch Terminal Specifications

SPECIFICATIONS	
User interface	7" color widescreen Ruggedized, five-wire resistive touchscreen Multicolor LED indicator Speaker
Integrated readers	Integrated bar code badge reader Integrated magnetic stripe card reader Integrated HID or EM proximity card reader Integrated biometric fingerprint reader
Communications	10/100 Mbps auto-sensing Ethernet/Wi-Fi with DHCP, SSL, IPv4, and IPv6 support (Wi-Fi Optional)
CPU type	TI OMAP 3500
Memory size	2GB Flash, 512MB RAM
Power	100–240V, 1.5A max, internal or external transformer Integrated power over Ethernet
Environment	Operating temperature: 0° to 40° Celsius Storage temperature: -20° to 70° Celsius Humidity: 10%–95% noncondensing
Dimensions	10.75" wide x 6" high x 4" deep (standard configuration)
Enclosure	Rugged polycarbonate/ABS resin
Shipping weight	5 lbs.
Options	Integrated biometric verification module (Touch ID®) Integrated biometric identification module (Touch ID® Plus) External proximity reader External linear imager bar code scanner Direct AC wiring Universal relay
